

17th International Thyroid Congress
19 - 23 June 2025
Bilo de Bivero, Brazil

ROOMS	
ALICATORNIUM 2016	1700 SEATS
ALICATORNIUM 2016	600 SEATS
Room 1	400 SEATS
Room 2	350 SEATS
Room 3	300 SEATS
Room 4	250 SEATS
Room 5	250 SEATS

SESSION TYPE KEY	
1	Plenary Lectures (45m)
2	Early Riser Symposium (1h20m)
3	Plenary Lecture (45m)
4	Prize Lecture Session (45m)
5	30 Discussions/Debates (50m)
6	21 Symposia (1h 15m)
7	36 Oral Abstracts
8	80 Short oral communications

Day	Time	Activity
Wednesday, June 18th	07:00 - 23:00	REGISTRATION OPEN EXHIBITORS MOVE IN 8:00AM - 6:00PM PRE-CONFERENCE SATELLITE PROGRAMMING Iodine Global Network (IGN)
Thursday, June 19th	07:00 - 23:00	REGISTRATION OPEN 7:00 AM - 5:30PM ULTRASOUND COURSE Kocher Conference S1. Alternative approaches to indeterminate nodule management S2. Indeterminate Nodules: Molecular and Genomic Strategies Across Different Regions S3. Fetal Risks Associated with Thyroid Disorders S4. Thyroid hormone action in health and disease Tumor Board in the context of the new guidelines. International public health issues in thyroid diseases: Round Table with African Experts HOT Abstracts (4) ITC Opening Ceremony LATS: Advances in Thyroid cancer management ETA: What has changed in Thyroid Eye Disease? ATA: Surgical Approach Changes in Thyroid Cancer Over the Years ACITA: Progress in Basic Thyroid Research: A 5 Year Overview WELCOME RECEPTION
Friday, June 20th	07:00 - 23:00	REGISTRATION OPEN 7:00 AM - 5:30PM EARLY RISER SYMPOSIUM: Thyroid cancer management: Difficult clinical cases 7:00 - 8:25AM PLENARY 1: 30 years of active surveillance for low risk thyroid cancer, lessons learned, and future directions 8:30 - 9:00AM PLENARY 2: Thyroid hormone analogues and potential applications 9:00 - 9:30 AM POSTER/EXHIBIT HALL BREAK 9:30AM - 9:45AM LATS PRIZE LECTURE 9:45 - 10:30PM DEBATE1: TSH threshold for replacement thyroid hormone in pregnancy MTP2 - The ATA approach of molecular testing for thyroid nodules MTP3 - Role of calcitonin measurement in the surgical decision making DEBATE4: Is Surgical Treatment Still an Option for Thyroid Eye Disease? MTP5 - Thyroid hormone and disease mechanisms MTP6 - Iodine and nutrition: Global Trends MTP7 - Pediatric thyroid cancer: Recent advances POSTER SESSION/EXPO THEATER IN EXHIBIT HALL 12:00 PM - 1:00PM ETA PRIZE LECTURE 2:00 - 2:45PM ORAL ABSTRACTS (20) SYMPOSIUM S5. Treatment decisions in low risk thyroid cancer S6. Update on Hyperthyroidism in Pregnancy S7. Emerging Trends in Thyroid Nodule Imaging S8. Hypothalamic-pituitary-thyroid axis MTP8. Management of Graves' disease in children MTP9. Environmental endocrine disruptors MTP10. Obesity following treatment for thyroid dysfunction ATTENDEE AFTERNOON FREE
Saturday, June 21st	07:00 - 23:00	REGISTRATION OPEN 7:00 AM - 5:30PM EARLY RISER SYMPOSIUM: Challenging clinical cases of thyroid nodules 7:00AM - 8:25AM PLENARY 3: Opportunities and challenges of artificial intelligence in healthcare 8:30 - 9:00AM PLENARY 4: Modeling human thyroid development and diseases using stem cell-derived organoids 9:00 - 9:30 AM POSTER/EXHIBIT HALL BREAK 9:30 - 9:45AM S9. Novel therapeutic perspectives for advanced thyroid cancer S10. Genetics in congenital Hypothyroidism S11. Transcription, differentiation and circadian control by thyroid hormone S12. Iodine, selenium and thyroid diseases MTP11. Hazards of endocrine disruptors in pregnancy DEBATE12. Controversies for and against routine serum calcitonin measurement and FNA washout in thyroid nodules MTP13. IgG4 related thyroid disease DEBATE14. Early definitive treatment of Graves' hyperthyroidism is the gold standard MTP15. Outcomes in ATC: Is it Evolving into a Treatable Disease? MTP16. Tissue responses to thyroid hormone MTP17. Nuclear accidents and thyroid disease MTP18. Thyroid nodule management in children DEBATE19 MTP/DEBATE 19 MTP/DEBATE 20 POSTER SESSION/EXPO THEATER IN EXHIBIT HALL 12:00 PM - 1:00PM ATA PRIZE LECTURE 2:00PM - 2:45PM ORAL ABSTRACTS (16 TOTAL) S13. End-Organ Effects of Hyperthyroidism S14. Novel Advances in Thyroid Cancer Research S15. Advances in the role of TSHR S16. Impact of Radiological and Chemical Exposure on Thyroid Health Room 5 Room 6 Room 7 Banquet
Sunday, June 22nd	07:00 - 23:00	EARLY RISER SYMPOSIUM: Metastases: Impact of thyroid disease & pregnancy (Reasons not to panic) 7:00 - 8:30AM ATA PRIZE LECTURE 8:35AM - 9:20AM POSTER/EXHIBIT HALL BREAK 9:20AM - 9:35AM S17. Genomics of Thyroid Cancer S18. Environmental Factors and Their Impact on Thyroid Autoimmunity S19. Updates on neonatal CH screening S20. Thyroid Hormone and the nervous system S21. What's New in Hypothyroidism? Recent Advances and Insights DEBATE 21. Use of molecular testing for initial treatment decisions in low and intermediate risk thyroid cancers MTP/DEBATE 23 POSTER SESSION/EXPO THEATER IN EXHIBIT HALL 12:00 PM - 1:00PM MTP24. Approaches to Managing Toxicity in TKI MTP25. Alternative Management of Autonomous TN and microcarcinoma (including minimal invasive treatments) MTP26. Hypothalamic-pituitary-thyroid axis MTP27. Thyroid dysfunction with Immune Checkpoint inhibitors MTP28. The Dilemma of Subclinical Hyperthyroidism: Treat or Observe? MTP/DEBATE 29 MTP/DEBATE 30 ITC CONCLUDES EXHIBIT HALL OPEN 9:00 - 2:00PM
